# Formations, compétences et qualifications en Europe

The screenshot shows the homepage of the 'Learning Opportunities and Qualifications in Europe' website. At the top, there is a navigation bar with the European Commission logo and the text 'Learning Opportunities and Qualifications in Europe' and 'Information about courses, work-based learning and qualifications'. Below this is a search bar and a large banner for 'Open Education Europa' with a 'Learn More' button. The main content area features a search prompt 'What are you searching for?' and a 'Search on the Map' button. Below these are eight service tiles: 'Learning Opportunities', 'Qualifications', 'Validation of non-formal and informal learning', 'Guidance Services', 'Moving to a country to study', 'Exchange Programmes & Erasmus+ and other Grants', and 'Recognition of diplomas and qualifications'. Each tile contains a brief description of the service.

# La mobilité des professionnels de l'orientation

Home / International mobility / Academia mobility experience

The Academia study exchange project is a European project that gives guidance professionals the opportunity to participate in a learning mobility period in another European country. Academia coordinators are engaged in sending their own guidance counsellors abroad and receiving practitioners from other countries on thematic study visits for a duration of 3 days to one week.

The Academia project was launched in 1995 and since then hundreds of guidance practitioners in Europe have benefited from it. Thereby this project has contributed to strengthening the European dimension in guidance by building networks and promoting mobility and professional training. The Academia project promotes the mobility of guidance practitioners in Europe, enhances European networking and cooperation in matters of information and lifelong guidance, and fosters the exchange of good practices and methods among the participants.

All available Academia mobility opportunities can be found here.
